

AIDA NASUHA BINTI MUHAMAD FADELI

Bachelor of Computer Science(Network Security)with Honors

Address: Kota Bharu, Kelantan

Phone: 01139263109

Email: aydanasuha03@gmail.com

LinkedIn: <https://www.linkedin.com/in/aida-nasuha-b1000b403>

Intership Duration: 6 Months (20 September 2026-19 March 2027)

SUMMARY

A highly motivated Computer Science undergraduate specializing in **Network Security** from Universiti Sultan Zainal Abidin (UniSZA). Possesses a solid foundation in network infrastructure management, data protection and cybersecurity protocols. Proficient in configuring network devices (Cisco), traffic analysis and implementing security measures to mitigate cyber threats. Seeking a 6-month internship (Sept 2026 – March 2027) to apply technical expertise in a professional enterprise environment.

EDUCATION

Universiti Sultan Zainal Abidin (UniSZA),

- **Bachelor of Computer Science (Network Security)**
- **Current CGPA:** 3.15
- **Achievement:** Dean's List (Semester 3, October 2023)

Sijil Tinggi Persekolahan Malaysia (STPM)

- **Current CGPA:** 2.84

PROJECT

Phishing Email Detection using Machine learning

oct 2025 - Present

- Developing an automated detection system to identify malicious phishing emails using the Naive Bayes algorithm.
- Pre-processing large datasets of email headers and body content using Natural Language Processing (NLP) techniques such as tokenization and stop-word removal
- Training the model to distinguish between "Ham" (legitimate) and "Phish" based on feature extraction of suspicious URLs and keyword patterns
- Objective: To achieve high precision in filtering deceptive emails, reducing the risk of credential theft and social engineering attacks within an organization.

Secure Corporate Network Development (Cisco Packet Tracer)(Group project)

July2025

- Designed and implemented a scalable corporate network topology for a mid-sized organization using Cisco Packet Tracer.
- Configured VLANs (Virtual Local Area Networks) for departmental traffic isolation and implemented Inter-VLAN Routing to ensure seamless cross-department communication
- Hardened network security by implementing Port Security and Access Control Lists (ACLs) to mitigate unauthorized access and internal threats
- Managed network stability and redundancy by configuring Spanning Tree Protocol (STP).

WORK EXPERIENCES

Part-time Sales Promoter | polo hill, Panti Timur Shopping Center | April 2025 - May2025

- **Customer Handling:** Professionally handled customer inquiries, special requests and conflict resolution.
- **Organizationl skills:** Maintained high standards in product preparation and inventory organization.
- **Process Compliance:** Consistently followed daily opening/closing procedures managed transactions accurately.

LEADERSHIP & VOLUNTEERING

Vice chairperson-Sispa”santunan kasih”|2024

2024

Co-led a community service project, overseeing committee members to ensure smooth program execution.

Managed event logistics and coordinated communication between volunteers and participants.

Demonstrated strong leadership and crisis management skills in a high-pressure community environment.

ADDITIONAL INFORMATION

- **Technical Skills:** Cisco Packet Tracer, Wireshark
- **Operating systems:** Windows Server, Linux(ubuntu/kali)
- **Security tool:**Kali Linux, Nmap, Metasploit, Nessus (Vulnerability Scanning), Snort (IDS)XAMPP
- **Hardware & infrastructure:** Router & Switch Configuration, Firewall Setup, VPN Implementation.
- **Programming/scripting:** Python,java,c++, MySQL, Bash Scripting
- **Languages:**English, Malay
